DILWAG SINGH MOHANTA

Full Stack Developer | Data Science Enthusiast

+91-9124219490 | dilwagsm@gmail.com | LinkedIn | GitHub | Bangalore

SUMMARY

Aspiring Software Developer with hands-on experience developing web applications and backend solutions using Java, Python, Django, and Flask through academic and personal projects. Built REST APIs, implemented database-driven applications, and applied object-oriented programming principles to improve application functionality and maintainability. Experienced in debugging, database management, and performance optimization, with a strong foundation in software engineering practices and a commitment to delivering scalable and reliable software solutions.

TECHNICAL SKILLS

Languages: Java, Python
Frontend & Backend: HTML, CSS, JavaScript, React.js, Node.js, Flask, API's
Database: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Jupyter Notebook
AI/ML: Machine Learning, Deep Learning, CNN, RAG, LLMs, YOLO, Computer Vision

INTERNSHIP

Full Stack Java Intern | Destination Career, Bengaluru **May 2026 – Present**

- Cut API latency 20% by optimizing Spring Boot backend and connection pooling across 5+ microservices.
- Designed scalable SQL schemas in PostgreSQL/MySQL, normalizing data to support 3x user growth.
- Delivered 2 feature releases on schedule with a 6-member Agile team using RESTful Java APIs.

DevOps Intern | GIET University (Rest Coder Academy), Gunupur **Jun 2025 – Jul 2025**

- Slashed setup time 60% by containerising 4 applications with Docker for reproducible microservice deployment.
- Cut deployment from 2 hours to 25 mins by building automated Jenkins CI/CD pipelines.
- Saved ~3 hours per cycle by authoring Bash automation scripts to eliminate repetitive manual tasks.

Data Science Intern | Y-Hills Education Pvt. Ltd, Bengaluru **May 2024 – Jul 2024**

- Hit 88% model accuracy across 768 clinical records by training a Python and Scikit-learn disease prediction system.
- Engineered data preprocessing pipelines using Pandas and NumPy for missing value imputation and robust feature scaling.
- Automated batch analytics reporting into Word format, saving ~3 hours per cycle while keeping code reusable.

PROJECTS

RAGent – Intelligent Interview Assistant **Jan 2026 - Apr 2026**

- Built an AI interview assistant using RAG and LLMs to generate role-specific questions from candidate resumes.
- Engineered personalized feedback models by executing semantic search across a 10,000-document using GPT generation.

MoneyGram – Budget Tracker with JWT Authentication **Jun 2025 – Dec2026**

- Built full-stack finance app with secure JWT authentication, supporting income/expense tracking across 50+ transaction categories.
- Integrated Chart.js data visualizations for live spending analytics, enabling real-time budget overrun detection.
- Engineered robust personal accounting logic to provide users with streamlined, secure financial health dashboards.

Sign Vision – Indian Sign Language Translator **Jan 2025 – Apr 2025**

- Hit 93% accuracy across 26 sign classes by training a CNN model on 8,000+ gesture images.
- Engineered live video translation by integrating Media Pipe pose estimation with OpenCV for real-time streams.
- Built accessibility ML pipelines to enable seamless, low-latency communication solutions for the deaf community.

EDUCATION

- **B. Tech in Computer Science & Engineering (Data Science) – GIET University, Gunupur, Odisha 2022 – 2026**
- **Intermediate (Science) – Siddhi Vinayak Higher Secondary School, Balasore, Odisha 2020 – 2022**
- **Secondary School – Saraswati Sishu Vidya Mandir, Bisoi, Mayurbhanj, Odisha 2010 – 2020**

CERTIFICATIONS

- Python for Data Science – IBM (Coursera)
- Data Analytics skill up – GeeksforGeeks
- Cybersecurity & Applied Ethical Hacking – Infosys Springboard
- Certification badges: Salesforce, Google Cloud, TDS iON, GDG Study Jams
